

To FCC

I get much use from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides me with a variety and a quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

Please, reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve.

Thanks
